

30 DAYS FREE!

— of the online registration system —

Online solutions for the road ahead.

TriVIN, Inc. is pleased to offer a **30-day free trial** of our online registration system (OLRS).

Use our Windows-based **OLRS** to:

- register and title vehicles in-house, online, and in real time
- issue plates, stickers, and registration documents at the point-of-sale
- streamline motor vehicle processing at no cost to you (transaction fees can be transferred to your customers)

Take advantage of the optional **DMS Extract** feature of our **OLRS** to:

- stop duplicating efforts, eliminate errors, and save time at the keyboard
- extract data seamlessly from ADP, R&R, and UCS dealer management systems (DMS) in seconds
- ensure data integrity (the OLRs automatically authenticates the extracted data with the DMV)

Thousands of customers can't be wrong!

To take advantage of the **30-day free trial**, please contact Benson Marsh at 800.876.2312, ext. 4216.

ELIGIBILITY REQUIREMENTS: To qualify for the 30-day free trial, your dealership must not have a triVIN online registration system (OLRS) in your facility. (Dealerships with any other online processing system automatically qualify for the 30-day free trial of triVIN's OLRs.) Exceptions will be made for those dealerships who previously had triVIN's OLRs, are no longer using it, and have returned the inventory a minimum of 6 months prior to the re-installation of triVIN's OLRs in conjunction with this offer.
