

# *The time has come . . .*

## **Choose triVIN as your electronic titling and registration vendor.**

The Wisconsin Department of Motor Vehicles (DMV) is in the process of implementing changes in the dealer population due to the Budget Bill signed by the Governor on July 25, 2005. This Bill mandates that ALL dealers process registrations electronically.

TriVIN's Online Registration System, the OLRs, is an Internet-based software program that allows you to handle your own registration and titling processes in the fastest, most convenient, accurate, and cost-effective manner possible.

- Extract data seamlessly from ADP and R&R dealer management systems (DMS) in seconds.
- Finalize and review deals separately or in one easy batch.
- Streamline motor vehicle processing at no cost to you. (Transaction fees can be passed on to your customers.)
- No high prices or hidden costs as seen with our competitors.

Take advantage of our **30-day free trial**. After that, enjoy our low **\$8.15 per transaction fee**.

## **You have a choice when it comes to your titling and registration vendor. Choose triVIN, a WATDA member since 2001.**
