Cruise through automotive administration with triVIN!

The Wisconsin Department of Motor Vehicles (DMV), in accordance with the Budget Bill signed by Governor Doyle on July 25, 2005, mandates that ALL dealers process registrations electronically.

With the E-MV11 program, you will NOT need to purchase costly MV11 paper. Online transactions will only require a receipt which is printed upon completion of every deal through triVIN.

WHY PROCESS ONLINE?

The OLRs allows you to process motor vehicles from the convenience of your existing PC. With it, you can:

- Register and title vehicles in-house, online, and in real time via your existing high-speed Internet connection.

NO DIALUP ...

NO BUSY SIGNALS ...

NO WAITING ...

WHY CHOOSE triVIN?

With triVIN, you have nothing to lose and time and money to gain.

The triVIN family of companies provides distinct products and services designed to automate motor vehicle processing and title administration.

TriVIN equips you with the tools you need to:

Exceed expectations

Minimize paperwork

Maximize results

- Our transaction fee is lower than the competition's.
- We don't charge a sign-up fee.
- We don't charge an annual fee.

System (OLRS)**

- The DMS Extract feature of our OLRs saves you time by performing non-invasive, read-only extraction of deal information from ADP, R&R, and UCS dealer management systems (DMS) in seconds.

Avoid duplicating efforts and save keystrokes by simply entering a Deal ID or Stock Number. The OLRs then:

- Retrieves the deal information from your DMS,
- Imports the information into the OLRs for processing, and
- Authenticates the data with the DMV.
