## VISIONEER ANNOUNCES CERTIFIED ONETOUCH LINK TO triVIN's ONLINE VEHICLE TITLING SYSTEM

### Ohio BMV Approves triVIN Online Titling with Visioneer OneTouch Scanners

**Pleasanton, CALIFORNIA – October 30, 2007** – Visioneer, Inc., a leader in intelligent imaging solutions, and triVIN, Inc., the leading provider of automated motor vehicle registration services and electronic titling, today announced a certified Visioneer OneTouch Link to triVIN's Online Titling System in the State of Ohio. Using the [Visioneer OneTouch® Links Software Development Kit](#) (SDK), the two companies co-developed the link that allows automobile dealerships, leasing companies, rental agencies and financial institutions to send documents directly to local County Clerks of Courts via the Ohio Bureau of Motor Vehicles (BMV) with the touch of a single button.

The OneTouch link to the Online Titling System enables automobile dealers to capture scanned documents in a single step with their Visioneer or Xerox DocuMate scanner. Once the link is installed, the scanned titling documents are instantly sent to the BMV's mainframe and routed to the appropriate County Clerk computer for processing. [Visioneer's OneTouch with Kofax® VRS™ \(VirtualReScan®\) technology](#) automatically improves image quality of the triVIN's application, making it easier for the BMV to process documents immediately.

TriVIN's Online Titling System technology automates transactions that would otherwise have to be manually processed in person at the BMV or by mail. The OneTouch link complements triVIN's goal of allowing auto dealers and leasing companies to handle transactions in the fastest, most convenient, accurate, and cost-effective manner possible.

“TriVIN has continually developed solutions that improve efficiency and convenience for the automotive industry,” said John Dexter, Director of Business Development at Visioneer. “The new OneTouch link to the Online Titling System will provide its customers with a powerful yet easy-to-use tool to minimize paperwork, increase productivity, and accelerate customer processing time.”

### **Visioneer SDK for ISVs**

The Visioneer OneTouch Links SDK is a wizard-based template that can be used to easily implement new functionality within Visioneer's OneTouch interface. Links developed with the OneTouch Links SDK will have access to all OneTouch functions, including the benefits of Kofax VRS technology that is integrated into Visioneer OneTouch. Links can be created to provide scan-to destinations, such as applications, devices (printers or fax servers), or locations (network or local folders).

The OneTouch Links SDK list price is \$499, which includes a support component, and is available from Visioneer. For more information, developers should contact the Visioneer business development team at [onetouchsdk@visioneer.com](mailto:onetouchsdk@visioneer.com).

### **About Visioneer**

Visioneer provides a broad range of scanning solutions for the desktop, distributed and departmental document imaging markets, as well as the mobile and remote business scanning segments. In 2003, Visioneer combined its leading scanner technology with the Xerox brand recognition to develop the Xerox DocuMate product line. Visioneer and Xerox DocuMate high-performance business scanners and imaging software solutions offer users speed, image quality, advanced paper handling and ease-of-use with exclusive Visioneer OneTouch™ technology. These products have received numerous awards including AIIM Best of Show in 2004 and 2005, as well as consecutive PC Magazine Editors' Choice Awards in 2005 and 2006. For additional information on Visioneer and Xerox scanning solutions, visit [www.visioneer.com](http://www.visioneer.com) or [www.xeroxscanners.com](http://www.xeroxscanners.com).

Visioneer offers both product lines under a single reseller partners program. The 20/20 Perfect Vision program optimizes VAR margins and sales opportunities through volume incentive rebates, sales support and marketing tools. Additional information can be found at [www.visioneer.com/2020](http://www.visioneer.com/2020).

### **About TriVIN, Inc.**

TriVIN, Inc. is headquartered in Groton, CT, and has fully-staffed remote offices in Wake Forest, NC; Albany, NY; and Sacramento, CA.

TriVIN designs state-of-the-art automated tools that improve the accuracy and efficiency of motor vehicle processing and lien and title management. TriVIN is committed, through partnerships with motor vehicle jurisdictions, to making motor vehicle credentialing and electronic lien and title administration more accessible, more convenient, and easier for companies and citizens alike.

TriVIN employs more than 600 people who provide our customers with expertise in the fields of direct sales; marketing; software application development, installation, training, and support; customer service; and accounting. Our personnel are highly trained, knowledgeable, courteous professionals who provide expert, thorough, and timely results.
